### Abstract:

Seabed of the Caspian sea and its subsoil shall be delimited by the Parties on the basis of the median line to be drawn with the consideration of equidistant points and modified by agreement between the Parties and with the consideration of the generally recognized principles of the international law and generally admitted practice in the Caspian sea. The present Agreement shall establish geographical coordinates of the contiguous areas of seabed in the Caspian sea. The initial point of the delimitation line shall be water edge with the coordinates 41°50', 5 in the latitude North and 48°35',6 in the longitude East that have been identified on the topographic map of scale 1:200000 (sheet K-39-XIX) of the 1979 edition. The final point of the delimitation line shall be 42°33', 6 in the latitude North and 49°53', 3 in the longitude East.
